>eLicenser (eLC): License Management System background and application

A property of Steinberg Media Technologies, eLicenser is a license-management technology.

Understanding how the eLicenser Control Center manages your eLc (Steinberg) key will assure completion of the update/upgrade process.

For the latest eLC version, please be sure to visit http://www.elicenser.net/en/latest_downloads.html

Once installed, the eLicenser program installs in the following locations:

**MAC: HD < Applications < eLicenser Control Center**

WINDOWS: C:\Program Files\eLicenser\eLCC or 64 bit Windows C:\Program Files (x86)\eLicenser

- **Customer must be connected to the internet to complete an update/upgrade authorization process. We understand that some customers do not have their music production computers 'online'. No problem. The eLicense Control Center can be installed on any computer that is online to complete the process.**

- **If your customer is unclear about what exact product they own, please have him/her confirm by launching the eLicense Control Center application to confirm (image below).**

- **SNA cannot returns on any opened box - incorrectly sold - Update/Upgrade SKU. This document has been created to assist in confirming what product the customer has and what SKU they want. Should you have any questions, please contact your SNA Sales Manager.**

- **If your customer is requesting to upgrade a Steinberg SKU that is not listed above, please direct them to www.steinberg.net for more information. Smaller upgrades such as Cubase Artist 6 to Cubase 6 and Sequel 1 to Sequel 2 are online only.**

ESSENTIAL PRODUCT LICENSE INFORMATION

Thank you for buying this Steinberg product.

We hope you enjoy using your new software!
Please read the following notes carefully – they will help you get the most out of your Steinberg software.

Your software?

Your license.

As for almost all software, the retail value you have paid for is for a license to use this product. The license is activated on your USB-eLicenser (USB protection device) by using the Activation Code(s) printed below.
Always keep your unused USB-eLicenser Activation Code or, once your USB-eLicenser has been activated, your USB-eLicenser, in a safe place!

Losing the unused Activation Code printed on this card or your USB-eLicenser once activated can be the same as losing your product.

Your Activation Code(s):

Cubase 6 Update from 4/5

XXXX XXXX XXXX XXXX XXXX XXXX XXXX XXXX

To activate your USB-eLicenser for this software product, please follow the instructions found at www.steinberg.net/activate. Keep the activation code handy while you go through the activation process.

Please register your product. Once you have done so, you are fully entitled to many benefits such as full support and product updates. Please visit the following URL to register your product now: www.steinberg.net/registration.

The Steinberg website regularly features product updates and special offers, so please make sure to check regularly.
